Learn How To Report & File Claims Quickly

We understand that in farming, timing is everything. Be prepared for a claim by taking a moment to review your duties requirements. Together, we will work to get you back into production as quickly as possible.

A.T. PANCRAZI™

Since 1923

Equipment Claim Loss?

Do the following:

- 1. REPORT**—Report your claim immediately to an A.T. Pancrazi agent (928-783-0000), after damage is known. A claim adjuster will call to discuss the claim, damages and appropriately advise.
- 2. PHOTOS**—Take photos of the damage; include overall equipment, VIN, ID, serial number tags or plates.
- 3. REPAIRS**—If repairs are made, you may be responsible for any maintenance-related parts or labor. Your policy describes coverages afforded and excluded —contact your agent for guidance.
- 4. SAVE PARTS**—Save all of parts being replaced by the service facility/dealer so they can be inspected by the adjuster. Ask the repair facility to take photos of anything they need to discard.
- 5. BURN = NO MOVE**—If equipment is a total burn, do not move and call your agent or carrier immediately. If the equipment can stay put, the carrier may have subrogation potential.
- 6. SAVE PAPERS**— Save every invoice, receipt and maintenance record on farm

Know Your Duties

- Notify the police (if applicable)
- Give prompt notice of the loss or damage
- Provide description of loss
- Protect property from further damage
- Provide complete inventory of damaged or undamaged property
- Permit to inspection
